## **It's time to put your project on the map**

**JustMap is mapping Christian Social Action across the UK and we need you to add your projects.**

Thousands of Churches & Christian groups across the UK are carrying out vital social action projects supporting people disadvantaged by poverty, sickness, addictions and abuse. **JustMap** is a new project to map all the Christian social action taking place across the country.

The purpose is to demonstrate the relevance & value of the Church to a “post-Christian” society and to become a tool to help projects learn, share and find support.

JustMap will also help groups to recruit more volunteers by providing a straightforward way for people to see what Christian activity to serve the poor is taking place in their community. JustMap can become a launching pad for the Church in the UK to become united in serving the most disadvantaged people in our communities.

Please take 5 minutes to visit **[www.justmap.org.uk](http://www.justmap.org.uk)** and add your projects.

For more info please email: [dan@greenpastureshousing.co.uk](mailto:dan@greenpastureshousing.co.uk) Twitter: @JustMap

JustMap has been started by Christian homelessness & poverty charity, Green Pastures Housing as a response to the fragmentation of Christian social action and widespread ignorance of the true scale and effects of poverty in the UK.
