

Dear PCC Candidate,

We wish you well in the forthcoming election.

Street Angels - CNI Network is representing around 120 local projects working within the night-time economy of town and city centres. Through programmes such as Street Angels, Town Pastors, NightLight, Street Chaplains, Youth Angels and Club Angels we are contributing to a significant reduction in violent crime, sexual assaults and anti-social behaviour.

We believe that partnership is key to much of the improvement that is taking place within our local communities and always encourage a local project to work with Police, Local Authority, Town Centre Management, church and voluntary agencies, etc.

As a candidate for the role of Police and Crime Commissioner we are emailing to let you know of the fantastic work and outcomes that happen when communities take responsibility for the wider community through initiatives like Street Angels.

We would like your commitment to working with Street Angels - CNI Network through existing local projects and through any new local project that will start up in the future.

Any response that you give will be shared via our Blog on www.cni-network.org.uk and also passed on to those local projects within your PCC region.

We would also like to offer an invitation to you to visit projects, happening within the region you are seeking to represent, to see for yourself the fantastic work that is achieved.

Many thanks and we look forward to working with you,

Paul Blakey MBE
Founder - Street Angels - CNI Network
